wahoo

ELEMNT

SIMPLY POWERFUL BIKE COMPUTERS.

USING YOUR BIKE COMPUTER SHOULDN'T BE THE HARDEST PART OF THE RIDE.

SIMPLE TO SET-UP

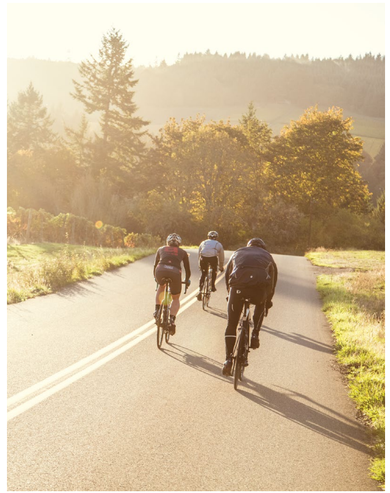
ELEMNT bike computers use the intuitive interface of your smartphone via our innovative companion app to customize settings, configure workout pages and link ELEMNT to your favorite cycling apps and wireless sensors.

SIMPLE TO EXPERIENCE

High-contrast displays, easy-to-access buttons, Perfect View Zoom and programmable LED performance indicators are just some of the features that make the ELEMNT family the most rider friendly bike computers available.

SIMPLE TO CONNECT

Pair your phone to receive call, text and email notifications mid ride (or turn them off in do-not disturb) and let your friends follow you from afar with live tracking.



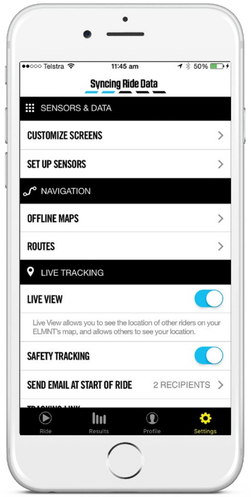
SIMPLE TO NAVIGATE

ELEMNT bike computers make it easy to stay on course with free pre-loaded maps, wireless route downloads from the most popular cycling apps (Strava, Ride With GPS, Komoot) and Wahoo's "Take Me Anywhere" navigation which allows users to generate a cycling optimized route and turn-by-turn cues just by plugging the destination into the companion app.

SIMPLE TO COMPETE

Equipped with Bluetooth, ANT+ and Wi-Fi, ELEMNT bike computers pair seamlessly with the most sensors on the market. Power, heart rate, speed, cadence, electronic shifting systems, muscle oxygen and KICKR indoor bike trainers. Post ride wirelessly sync your workouts to your favorite 3rd party apps automatically. ELEMNT bike computers are built to compete.

THE ELEMNT PLATFORM

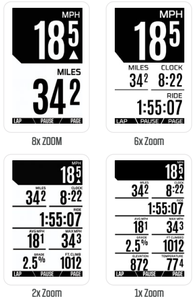


THE ELEMNT COMPANION APP

ELEMNT bike computers use the intuitive interface of your smartphone via our innovative companion app to customize settings, configure workout pages and link ELEMNT to your favorite cycling apps and wireless sensors. Post-ride, the companion app stores your workout history and wirelessly syncs your workouts to your favorite 3rd party apps automatically.

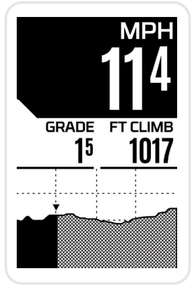
WORKOUT

Data takes visual priority on our crisp, high contrast screens. Choose from over 170 data fields to design curated workout pages to meet your needs or use our out of the box configurations to be riding in a flash.



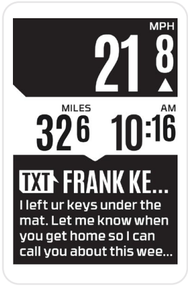
PERFECT VIEW ZOOM

Easy to access side buttons allow you to zoom in and out of curated data fields with just a touch.



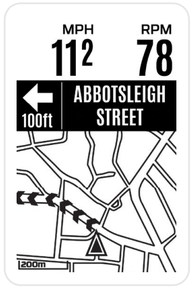
CLIMB

Using an onboard barometric altimeter and GPS data, ELEMNT displays accurate climb data in real time, including grade and total distance climbed.



TEXT & PHONE NOTIFICATIONS

Pair your phone to receive call, text and email notifications mid ride (or turn them off in do-not disturb mode). ELEMNT bike computers make it easy to stay in touch even when you are out on a ride.

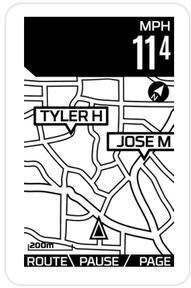


TURN-BY-TURN NAVIGATION

Get wireless route downloads from the most popular cycling apps (Strava, Ride With GPS, Komoot) and Wahoo's "Take Me Anywhere" navigation which allows users to generate a cycling optimized route and turn-by-turn cues just by plugging the destination into the companion app. Turn-by-Turn directions will pop up so you never miss a cue again.

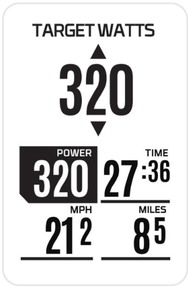
STRAVA LIVE SEGMENTS

ELEMNT bike computers fully integrate with Strava Live Segments to give you a heads up before the segment begins, progress status when you are ahead or behind your goal, and a unique Final Push when you are close to hitting a PR or taking that KOM!



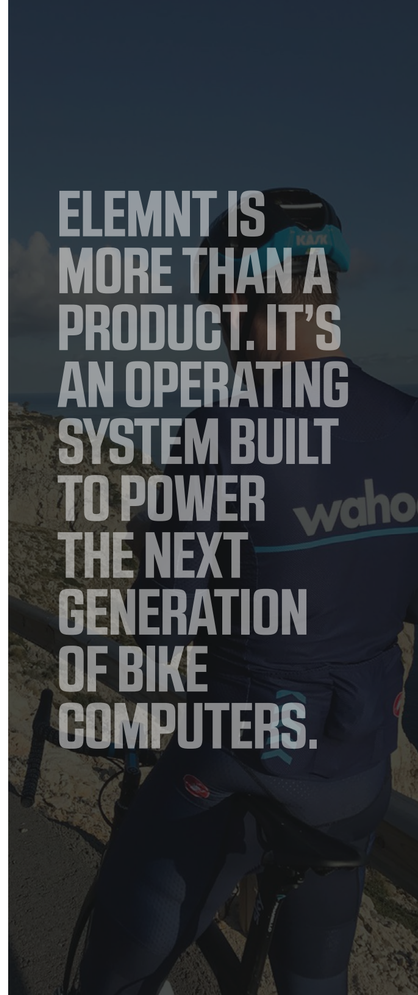
LIVE TRACKING

Looking to find friends out riding or keep a family member aware of your location? ELEMNT bike computers' live tracking feature makes it possible to see real-time location data on the your bike computer or from a URL on a computer or mobile device.



KICKR CONTROL

ELEMNT bike computers pair with both KICKR and KICKR SNAP indoor bike trainers to allow you to take the suffering inside and completely control the smart trainers trusted by world champions like three-time Tour de France winners, Team Sky. Control your smart trainer in 4 different modes: Route simulation, ERG, Level or Passive to just record your workout controlled by another app.



ELEMNT

gps bike computer

"We saw a need for a well-designed GPS-enabled bike computer that simplified the riding experience rather than complicated it, without sacrificing on features. We solved that need with the ELEMNT."

Chip Hawkins
Founder & CEO, Wahoo Fitness

THE POWER YOU DEMAND. THE SIMPLICITY YOU EXPECT.

Fully featured and offering the most advanced hardware, ELEMNT is made to go the distance with a best-in-class high contrast, high resolution screen; two sets of Quicklook LED Indicators; and enough battery life for a week's worth of epic rides.

LARGE DAYBRIGHT DISPLAY

ELEMNT's largest-in-class, high-contrast display is designed to provide maximum visibility in the most demanding light conditions.

2X QUICKLOOK LED INDICATORS

ELEMNT comes equipped with two sets of programmable Quicklook LED Indicators to provide a clear way to monitor your power, heart rate, and speed with just a glance. They also alert you to turn-by-turn instructions, incoming calls/texts/emails, and Strava Live Segment notifications.

BEST IN CLASS MAPPING

With free pre-loaded maps from around the world and one of the most high resolution high contrast screens on the market, the ELEMNT makes it easy to follow any road.

SPECS

WEIGHT	3.5 oz (99.2 grams)
SCREEN SIZE	2.7 in (68.6 mm)

ELEMNT BOLT

gps bike computer

"It was Wahoo's primary goal to create a computer that improved results on the bike, not hinder them. The only way to do this was to think about the end result and work backwards from there. This led us to design the computer and the mount as one; an integrated aerodynamic package."

Dimitris Katsanis
Director, Metron Advanced Equipment
ELEMNT BOLT Design Collaborator

DESIGNED FOR PERFORMANCE.

We partnered with leaders in performance design to create a computer that helps you achieve your best results, not just record them.

CFD TESTED VS. THE COMPETITION

In a 40KM TT, a rider averaging 21 mph will be approximately 12.6 seconds faster than a rider using the leading competition.

*Patents Pending

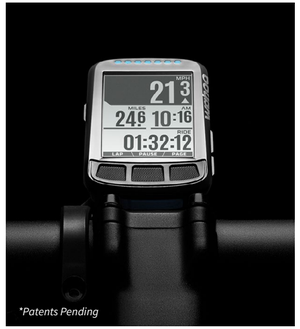
MORE THAN A SLEEK HEAD UNIT

The ELEMNT BOLT + Integrated Out Front Mount creates a system with a large smooth surface for the air to slip past, reducing wind resistance and the power (watts) required to maintain speed.

*Patents Pending

SHAPED TO SLICE THE WIND

The sides were tapered to maximize the ELEMNT BOLT's wind-slicing properties following time tested aerodynamic forms.



*Patents Pending

MAXIMIZE READABILITY. MINIMIZE AIR RESISTANCE.

The ELEMNT BOLT System was designed to maximize readability and minimize air resistance. We designed the computer to sit in the integrated out front mount at an angle to optimize your view of the screen.

SPECS

WEIGHT	2.1 oz (60 grams)
