

KICKR CLIMB

indoor trainer grade simulator

KICKR CLIMB is designed to take KICKR indoor riding to the next level by adding physical grade changes to your ride, preparing you to take on the toughest challenges and tallest mountains. The world isn't flat; now, neither is your ride!

MAIN FEATURES

ELEVATED RIDE FEEL

KICKR CLIMB quickly raises and lowers your bike to match ascents of up to 20% and descents of -10% when paired with the new KICKR or new SNAP. Climbing workouts and virtual courses are now more realistic than ever as KICKR CLIMB recreates the grade changes in real time.

POWER POSITION

KICKR CLIMB physically adjusts your bike position to mimic real roads and mountain climbing. This allows you to naturally change position on the bike, engage climbing muscles, and improve pedaling technique indoors to become more efficient and powerful climber outdoors.

RIDE ENGAGED

Connect to the most popular online training platforms to create a truly immersive ride experience. Whether riding a virtual course or performing a structured workout, KICKR CLIMB blends physical grade changes with resistance changes to take your indoor ride to the next level.

THE COMPLETE SYSTEM

KICKR CLIMB was designed jointly with the new KICKR and new KICKR SNAP Smart Trainers to deliver the best possible riding experience.

COMPATIBILITY

THE KICKR CLIMB WORKS EXCLUSIVELY WITH THE FOLLOWING WAHOO SMART TRAINERS:

KICKR

With new improved thru axle compatibility.

KICKR SNAP

With new LED status indicators.

SUPPORTING FEATURES

• **KICKR Controlled:** KICKR CLIMB pairs directly to KICKR or KICKR SNAP. This connection enables the Wahoo Smart Trainers to control the KICKR CLIMB.

• **Proximity Pairing:** Use the KICKR CLIMB's remote to quickly pair to your KICKR or KICKR SNAP.

CLIMB Modes:

Unlock Mode allows the CLIMB to react to grade changes from external sources such as Zwift or TrainerRoad, or from your ELEMNT or ELEMNT BOLT GPS bike computer.

Lock Mode ensures the KICKR CLIMB will only respond to commands received from the remote.

• **Remote Control:** KICKR CLIMB's remote attaches to your handlebars so you can adjust the grade manually with a simple press of a button. When not in use, the remote conveniently stores away in the top of the KICKR CLIMB.

• **3rd Party Compatibility:** When paired to a KICKR or KICKR SNAP, the KICKR CLIMB can match grade changes from select training platforms including Zwift and TrainerRoad.

• **ELEMNT Compatibility:** Connect an ELEMNT or ELEMNT BOLT to your KICKR and KICKR CLIMB system to relive the ascents and descents from your favorite rides or routes while training indoors.

• **Bicycle Compatibility:** In addition to standard quick release hubs, KICKR CLIMB also supports 12x100, 15x100, and 15x110 thru axle hubs.
